肤感

SKIN FEELING

柔润如蚕丝，魔法石再次定义软石，触摸得到的柔软，告别冰冷硬邦邦的装修。“极”=“肌”，极致的肌肤感，亲密、光滑、摩擦、等神秘不一样的触感体验。触感中不沾手的糯米黏人感。软而不腻，无水却润滑。它，是溶化的沙粒，似乎如液体静静流淌，犹如水利万物而不争的轻柔。

As soft as silk, Magic Stone defines soft stone once again, soft touch, farewell to the cold and hard decoration. “ji”(Extreme in Chinese)= “skin feeling”, the extreme skin feeling, intimacy, smoothness, friction, and other mysterious different touch experience. The sticky texture of glutinous rice that does not stick to the touch of your hands. Soft but not greasy, dehydrated but lubricated. It is dissolved sand, it seems like a liquid flowing quietly, like water moistens all things without contention. quietly, like water conservancy and everything is not gentle.
